Customer Service

Data Analysis and Reporting

Hobbies

Canyoning - adventure and exploration sport. Recent locations: Madeira and Ben Nevis.

Indoor climbing

Cinematography - helped out on the set of a music video and a hair loss add campaign.

Profile

Results-oriented and highly organized professional I'm seeking to expand my career into Software Development. Experienced in Javascript and ReactJS, however I am motivated to progress and learn new skills in my new role. I believe my excellent communication skills, analytical thinking and self-motivation are a good foundation for a career in tech.

Employment History

Junior Software Developer, _nology, London

SEPTEMBER 2020 — NOVEMBER 2020

A 12 week intensive Full Stack Software Development course that thought me the most up-to-date technical skills in the field.

During the course:

- I helped build a real client application designed as a platform to find the best restaurant deals in South East London. Built in React, the project used Firebase as a back-end for authentication and data-base.
- Applied Agile and scrum principles working in weekly sprints and pair programming.
- I took the Project Manager role and was responsible for communicating with the client, conducting daily scrums, assigning and updating tasks.

Contract Manager & Supervisor, G2 Travel, London, Barcelona & Bucharest

JANUARY 2012 — OCTOBER 2020

During my 8 years at G2 Travel I have taken several positions in the company that have allowed me to continually grow and expand my career. Extended knowledge in operations, client facing roles, negotiating, customer support and team supervision.

Key Accomplishments:

- Built strong relationships with our suppliers and built good negotiation skills.
- Grow the company portfolio of suppliers to support the business growth.
- Plan organize and execute the largest group to arrive in London at the same time.

Helpdesk Support Technician, Stefanini Tech Team, Bucharest

JANUARY 2011 — DECEMBER 2011

Streamlined technical support activities by working in collaboration with Galileo by Travelport, a global reservation system. Skillfully resolved all technical problems and assessed complexity.

Education

Bachelor of Arts, Economics, A. I. Cuza University, Iasi, Romania

OCTOBER 2007 — JULY 2010

CS50 Intro into Computer Science, Harvard University, Online

Complete Web Developer Course, Udemy, Online

Intro Into Web Development, Code First: Girls, London
